

# XBRL & ERP Services

## A FULL-SERVICE SOLUTION

No software to buy or learn. Accounting managers provide data to SimpleX using our secure platform and approve final documents prior to submission. For corporate finance teams, the solution is fast, simple, and cost-effective.

## EASY, ACCURATE, SECURE

SimpleX guarantees an SEC-compliant taxonomy, accurate tagging, and on-time submission – every time. Our team of financial and technology experts provide the skills necessary to get the job done right so your corporate financial team can focus on the numbers.

## COST EFFECTIVE

We've done the math and the results are clear: the cost of purchasing software, IT expense, and staff training simply can't compete with the SimpleX Solution where we manage the process from start to finish.

### Full Service XBRL Compliance

SEC regulations now require all public financial data to be submitted in extensible business reporting language (XBRL), providing better visibility into corporate finances but adding a new layer of complexity for finance managers. For many, SimpleX is the solution. We provide a full-service XBRL and EDGAR filing solution that offers a series of benefits over installed software systems, including fast turnaround times, competitive pricing models, and simple, secure processing.

Purchasing and learning XBRL software can be a slow and expensive proposition for corporate accounting teams already burdened by tight deadlines, complicated regulations, and intricate IT systems. SimpleX offers an alternative – an outsourced solution that is easy, accurate, cost effective, and fast. We do the work! In many cases, we can tag and file corporate financial statements in about a week. The result: corporate financial managers focused on finance, not software, IT, and training.

### Comprehensive ERP Solutions

SimpleX specializes in Oracle Database and Oracle E-Business Suite Management providing complete coverage of all of ERP system needs. Our Oracle E-Business Suite Implementation includes full ERP system lifecycle management, including:

- Remote DBA Support and services
- DB Monitoring Services
- Space Monitoring
- Backup and Recovery
- Availability and Instance Performance Monitoring
- Storage Management, Instance tuning, Patching and Cloning

# XBRL & ERP Services

## THE SIMPLEX GUARANTEE

SimpleX guarantees your financial statements will be correctly formatted, accurate, and submitted to the SEC on time. Proprietary software solutions can't make that guarantee.

## CUSTOMER TESTIMONIAL

"We were impressed with SimpleX' service offerings. They handled all of the technical details of the XBRL specifications and produced user-friendly, tagged financial statements that made auditing the mapped financials very easy. They helped create all of the relevant files that satisfied our EDGAR filing and validation process.

Thanks to SimpleX, our first XBRL filing experience was both educational and hassle-free."

Danica Joseph  
SEC Reporting Manager
